\* Information gathered from Colorado Proud website: [coloradoproud.com](http://coloradoproud.com).  
 See their website for a full listing of Colorado produce.

\* Many meat producers may have a 'fall order' where you can buy in bulk. Check with your favorite local supplier in summer and fall to see what options are available.

# FRUIT SALSA

Adapted from recipe by Cooking Matters

[pueblofoodproject.org](http://pueblofoodproject.org)

## Ingredients:

- 2 mangoes, 1 pineapple or 4 peaches
- 1 small cucumber
- 2 medium green onions
- 1 medium red bell pepper
- 2 medium limes

## Optional ingredients:

- 1 medium jalapeno
- 1/4 cup fresh cilantro
- 1/2 teaspoon salt
- Pinch of cayenne pepper

## Instructions:

1. Rinse all fresh ingredients. If using canned fruit, drain.
2. Peel skin from fruit and cucumber if desired, then dice.
3. Cut bell pepper in half, remove stem and seeds, then dice. Repeat with jalapeno, if using.
4. Finely chop green onions, as well as cilantro if using.
5. Add everything to a bowl. Add juice from 2 limes. Mix well.

## Chef's Notes

- Try it with other seasonal fruits such as watermelon, cantaloupe, cherries, plums or apples. Try to use ripe but still firm fruit so your salsa isn't too mushy.
- Cover and refrigerate for better flavor, for 2 hours up to overnight. Store in refrigerator for up to 3 days.
- Ways to enjoy: Serve with tortilla chips; use as a topping for tacos or grilled meat or fish; add to salads, grain bowls, quesadillas, burritos or wraps.
